

LTC (Ret) Kenneth L. Artiss Memorial Symposium

Mental Health in Primary Care- Improving Outreach and Outcomes for Soldiers and their Families

12 June 2006, Joel Auditorium

Walter Reed Army Medical Center

Target Audience: Physicians, nurses, psychologists, social workers and other providers or potential providers of health care to soldiers and their families.

Objectives: At the end of this event, participants should be able to: 1. Discuss the challenges of integrating mental health care into primary care settings. 2. Identify areas of clinical practice that could benefit from improved integration of mental health and primary care. 3. Identify clinical issues specific to mental health in primary care.
